

PARTS CATALOGUE

Series E39

BMW ALPINA D10 BITURBO

The ALPINA-parts catalogue is based on the BMW-parts catalogue. Basic cars for the BMW ALPINA D10 BITURBO and the BMW ALPINA D10 BITURBO touring are the BMW 530d and the BMW 530d touring. Basic engine is the M57 D30. Only ALPINA-parts and not clear perceptible BMW-parts which differ from the basic-car are listed. For BMW-parts you have to use the BMW-parts-catalogue.

The abbreviations used in several columns of the text lines have the following meanings:

1. item column (POS): picture number equal to the shown part
2. expression column
3. part number column
4. model column: wanted quantity; x = quantity as required
5. SW.-Tr.-column: x = for cars with SWITCH-TRONIC
6. remarks column (REM): a, b, c, ... country specification, use from / up to, other informations...
A: part number exchangeable with the one mentioned in the next line
E: part number is cancelled
WW: part number is used alternatively by the one standing either before it or afterwards (also marked with "WW")

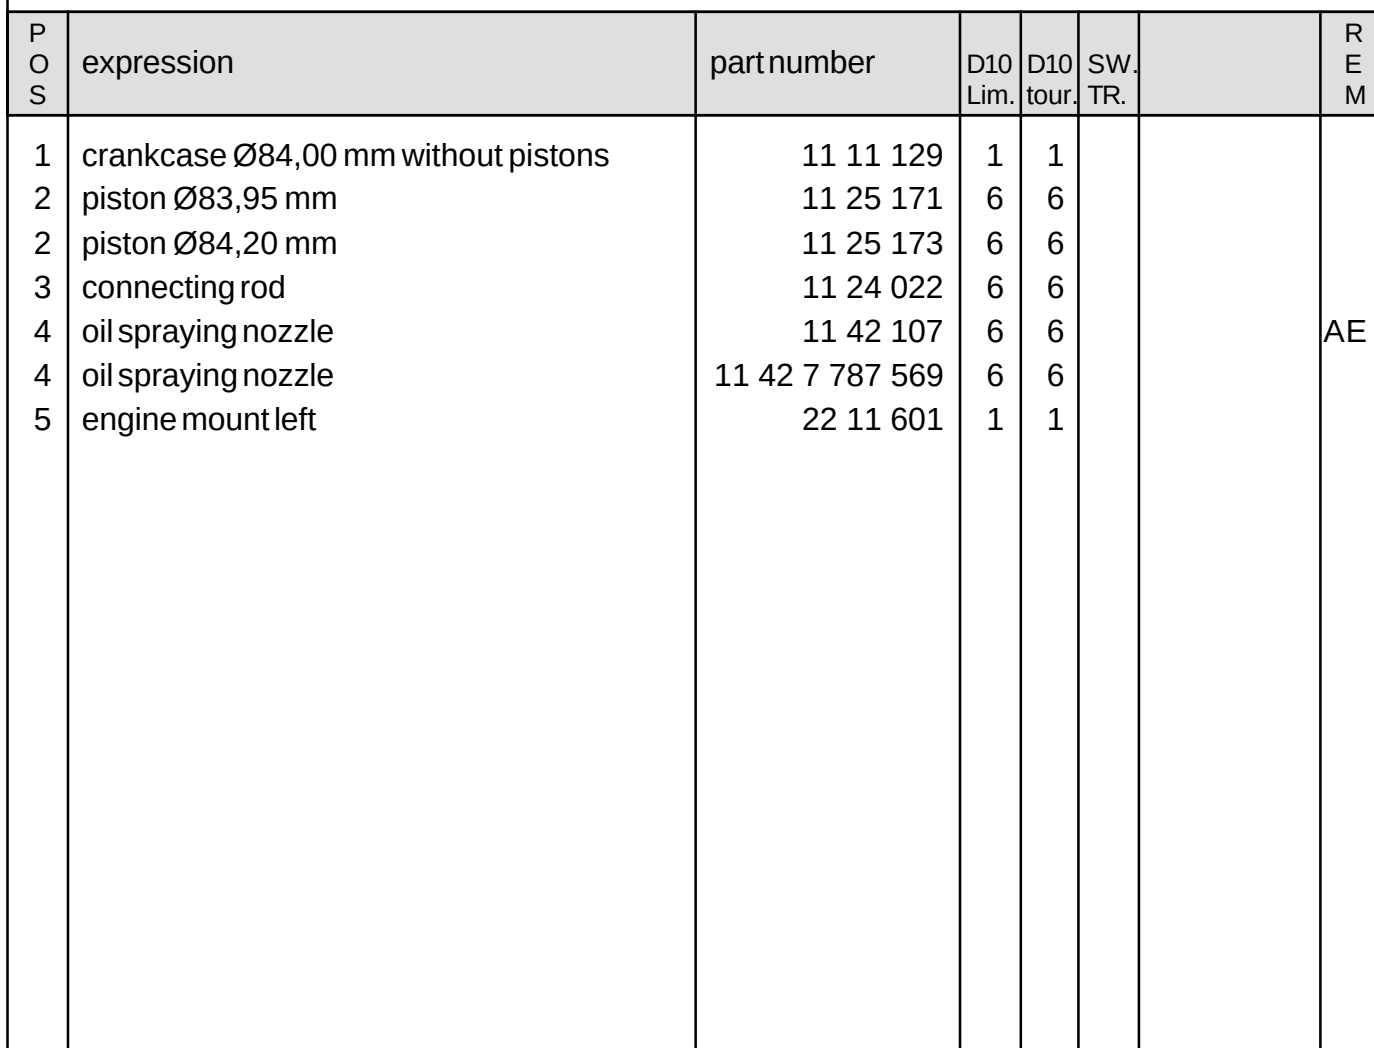

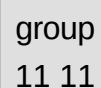

The illustrations in this catalogue do not correspond to the original size and shape!
